

Attention Small Business Owners!

Are you interested in providing affordable health insurance for your employees?

The **Access to Health Insurance** program makes health insurance premiums more affordable for employees of qualified small businesses. Under this new program, low-income employees, their spouses and their minor children may have their health insurance premium costs offset up to \$100 per person per month.

How can I participate?

- Operate a small business with 2-50 employees.
- Currently **NOT** offer health insurance.
- Work with an insurance representative who sells small group health plans.
- Be willing to pay at least 50% of the premium costs for the employee. If the spouse enrolls, the employer must pay 50% of the combined insurance premium for the employee and spouse.
- Employ individuals who meet the income guidelines. For example, maximum income for a household of three is approximately \$2400 a month.

Want to learn more?

Come to an informational meeting during March or April. See reverse side for times and locations.

To reserve your spot

- Call 1-866-234-9488 or
- Email: kinghort@idhw.state.id.us with number of people, date and location you would like to attend.

Good for employees, good for business!
